ongoing adjustments and innovations in assessment practices demonstrate a commitment to academic excellence and the continuous improvement of the educational experience.

5. What have you learned from these results? What does the data tell you? Address both a) learning gaps and possible curricular or pedagogical remedies and b) strengths of curriculum and pedagogy.

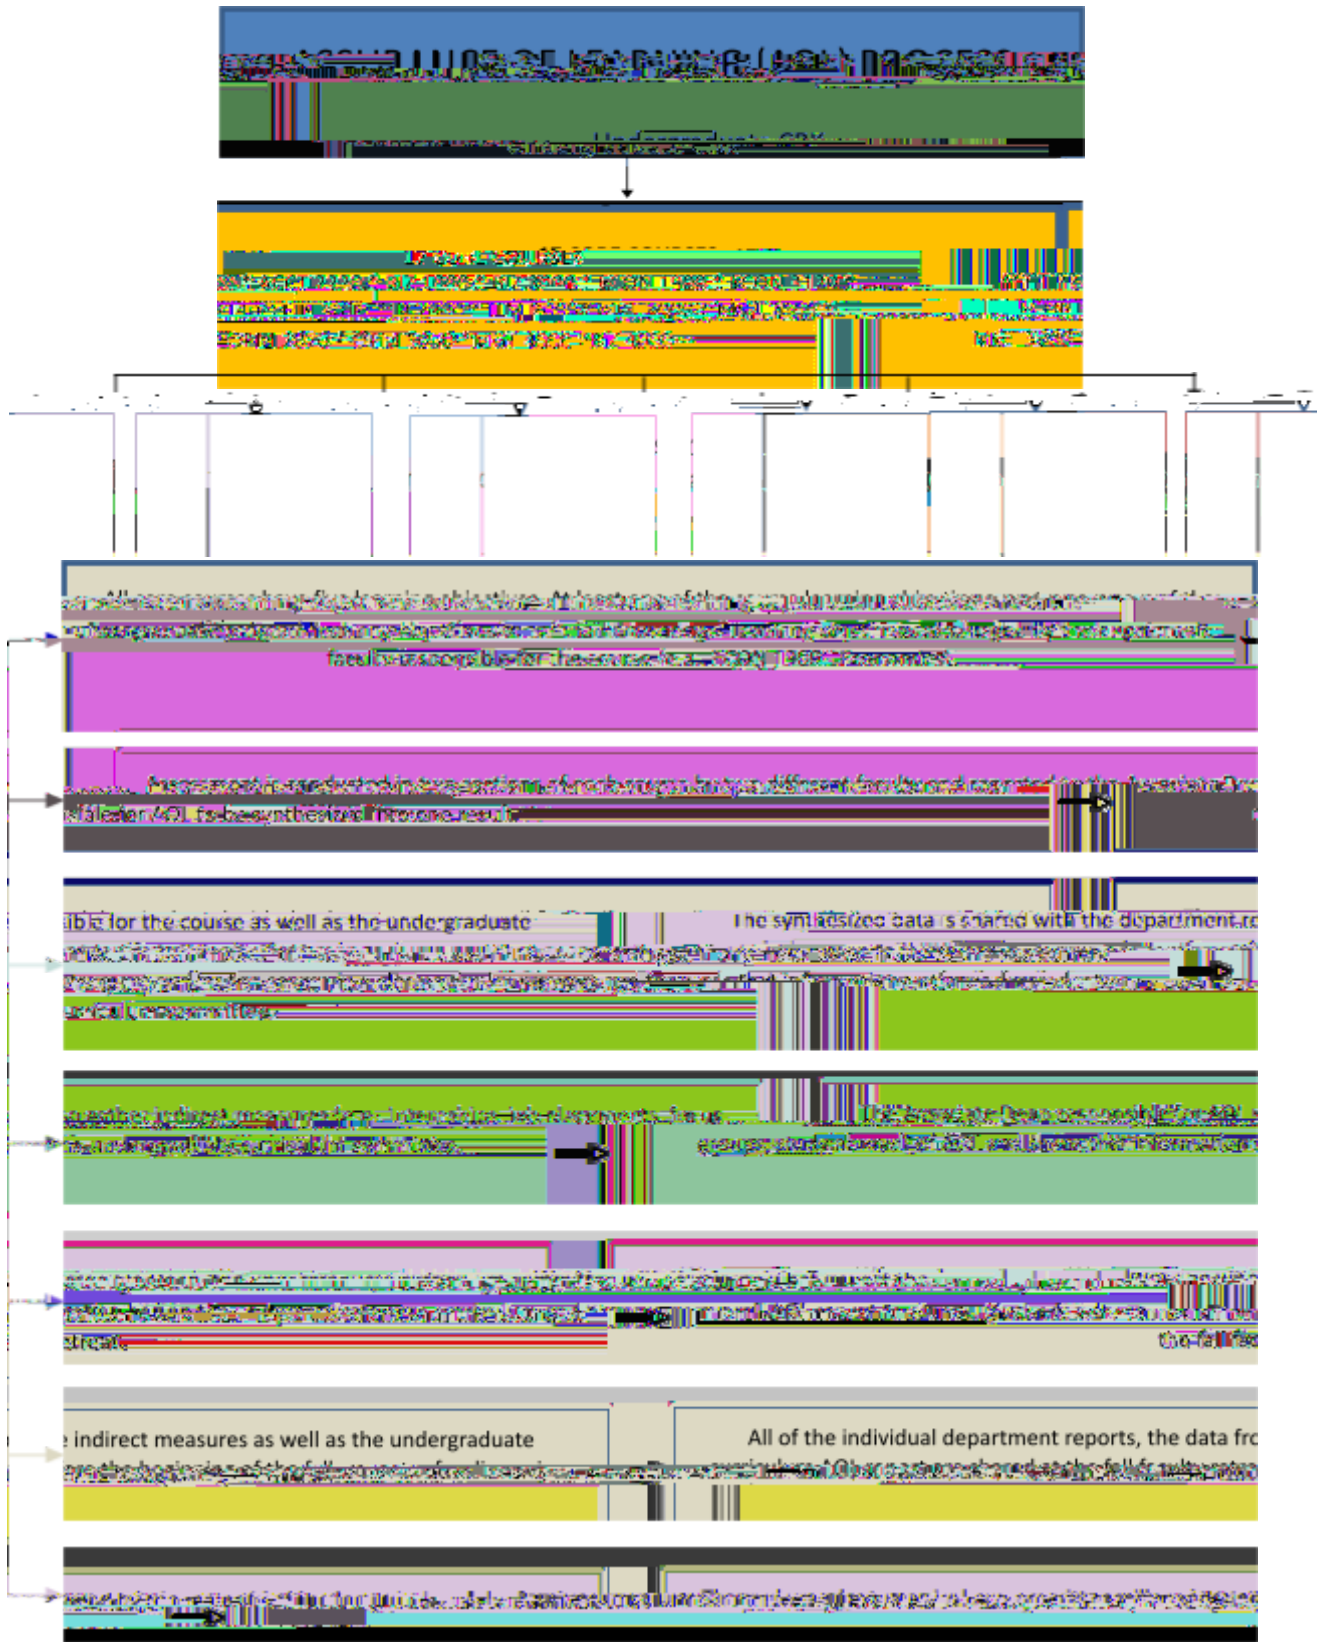

The analysis of findings from both the main and Madrid campuses highlights concerted efforts to refine assessment practices and teaching methodologies to enhance student learning outcomes

departments reflect a dedicated approach to addressing specific educational challenges, enhancing student engagement, and continuously improving teaching and assessment

51

4. AD-AS/IS-LM models: the determinants of business-cycle fluctuations and the role of stabilization policy.

17

5. International: the relation between trade balances and international borrowing/lending and the implications of different exchange-rate regimes (floating/fixed).

1. Competitive Market Model: Use the competitive market model to analyze the effects of government policies.

66

5. Understand the concep

1. Students shall be able to calculate, graph and understand measures of central tendency and measures of dispersion.	35	Green	Green
2. Students shall be able to interpret and calculate a confidence interval for the mean.	35	Red	Red
3. Students shall be able to identify null and alternative hypotheses and be able to interpret the associated Type I and Type II error in the context of the problem along with its p-value.	35	Green	Green
4. Students shall be able to interpret and apply a least squares regression equation	35	Green	Red
5. Students shall be able to demonstrate critical thinking skills in the interpretation and application of sta
