An ad-hoc discussion around course delivery and evaluation was had with selected CIS adjunct faculty. As an outcome, all agreed that the program is delivering an applied and up-to-date program of study to the students.

It was, however, stressed that all faculty will need to report tangible data this coming year to support our discussion.

How specifically have you decided to use these findings to improve teaching and learning in your program? For example, perhaps you've initiated one or more of the following:
